Introduction

This is a true story about me and a girl called Yaren. This isn't the full story and is yet to be complete

Chapter 1

Tuesday 3rd September

1st day of high school

It all happened when I started high school (middle school if you are American.) I was in RS (religious studies) and I only knew one person, Siena, so obviously I sat with her. There were many people in my class but there was one person who was obviously used to bring the centre of attention. I soon found out that her name was Yaren. She had dark brown hair, tan coloured skin and a pointy nose. She looked at me. I looked at her. I was expecting a friendly smile - but no. Instead, I got a dirty look. From that day on, I knew we were not going to be friends. She never talked to me. She never even said hi when we walked past each other.

When me and Siena were walking to our next lesson, History, we sat with each other again and Yaren was sat next to a girl called Olivia. Yaren didn't seem to talk to Olivia either. Although, at the end of the lesson, one person from each desk had to take the books in. Siena wanted to do it so I let her do it. Weirdly, Yaren asked Siena if she could take her's and Olivia's book as well.

Chapter 2

Wednesday 9th October

Good for Ella, bad for me?

My BFF Elize is in Yaren's form, and Elize doesn't like Yaren either. But strangely enough, Freya and Leah are FRIENDS with Yaren. To be honest, I have no clue why. Siena seems to be sort of friends with her.

I was a bit late to school today, and my first lesson was history. When I walked into the classroom, I sorta FREAKED OUT when I saw YAREN sitting in MY SEAT next to SIENA. As I was late and the lesson had already started I couldn't talk to her to get MY RIGHTFUL SEAT back. I looked at where Yaren is MEANT TO SIT. But Olivia's friend, ELLA, was sat there. Then I looked at where Ella was MEANT TO SIT, next to Amber, there was no one there so I just walked over there. Hey, at least ?ALEX? was sat in front of me!

?!

Chapter 3

Tuesday 19th November

PE meltdown?

Today we had PE. I was in set 2 and Elize was in set 3. The teacher told set 2's to get in partners with a set 3 so obviously, I went with Elize. Because there were quite a few set 2's without set 3's YAREN got told to go with me and Elize. Me and Yaren had already done what we were showing Elize so I demonstrated what we had to do. It was easy. All we had to do was throw a ball at a wall and catch it with the other hand.

Soon after I had explained what we needed to do, Freya joined our group. She was timing us because she had hurt her leg and so couldn't do PE. Not gonna lie, Elize wasn't that good at it and got upset. Then, Freya and Yaren had a PROPER GO AT ME because apparently I wasn't explaining it properly. Then, Yaren explained it to her, but the thing that p I s s e d me off the most was that she used EXACTLY THE SAME WORDS AS ME!

The next activity was the agility test and Yaren demonstrated. There were lots of sharp corners in the track and she kept doing it wrong. Me and Elize didn't even get to have a go at it because there wasn't any time after she had demonstrated properly.

The final activity was the 30 metre sprint. Yaren demonstrated (even though it was my turn) and she slipped right at the start. She had only twisted her ankle but she got to go HOME?

This is a true story about me and z girl called Yaren. This is episode 2 so make sure you read episode 1 first

Chapter 1

Friday 13th December

It's only a glue stick, right?

In History today (I'm still sat next to Amber) Yaren was giving out the glue sticks and she said in front of the whole class that the glue sticks reflect us and our personalities. Of course, she gave herself the best, new one and I got the dirty, gross one. It was a different brand to all the others. It also had a lump of chewing gum stuck to the bottom. Yes, I'm fine with being different and I do chew gum in class when we are not allowed but it actually really hurt me inside. Also when she was giving me mine, she said under her breath 'This ones perfect for you'. The glue stick didn't even work but luckily I came prepared and I had my own.
