Chapter 1

What's this feeling?

I'm getting a bit worse with each coming day

When I look him in the eyes, mine don't light up anymore

When I walk past him, I don't laugh anymore

What's this feeling? its like my mind moved on but my heart didn't

It's not just a crush anymore

Why does this hurt so much?

Why does it make me cry seeing him sad?

He never cried for me

He only fights for me
