# Chapter 1

In Inkopolis, the train for the outskirts of Inkopolis valley soon arrived in the square! 2 inklings both came out of the train and saw each other both holding an inkstrike, seeker, and a .52 gal! The one inkling girl's name was Celeste, meanwhile, his name was Enco(Spanish for Ink) They started to think they found their soul mate! Enco changed his ink color to lime green, the same color as Celeste's ink color! They did want to be on the same team but that was up to Judd... and he put Enco and Celeste on the same team. 3 minutes later, the turf war ended, and while green won Celeste asked Enco if he could come to her place. Enco accepted her invite! Later, they told each other how long they have been battling and all that.

## Chapter 2

Celeste started a crush on Enco. But she was too scared to tell him. Yet, Enco did too have a crush on his squid-kid friend. Enco loved Celeste's gear. She told him that because she was Squid Girl, so Celeste had the full Squid Girl set. Enco asked if he could stay overnight because when the squid duo was walking to the lobby, Enco's parents were getting him an e-liter 4-K. His mom sent him a text saying she will drop off stuff a soon as they get home. Once the duo's parents were gone, they played Truth or Dare! Celeste went first, "I-Is it true you have a c-crush on me" Both the squids blushed then Enco said, "Yes, it is true,"

THE NEXT DAY...

## Chapter 3

Celeste woke up and made sure Enco was doing fine. He was. But.... he woke up while Celeste was touching him. Celeste was thinking Enco would be SUPER mad... but he was not, he let Celeste continue. An hour later... Enco woke up with Celeste snuggled up by him. He tried to get up without waking her, but she did hear the door open and Enco stayed by the door until Celeste came up and kissed him quickly on the cheek. He blushed, so did Celeste. During breakfast, Celeste was playing with Enco's hair and then Celeste's parents questioned her. And she just ran upstairs. Once both squids got dressed and brushed their teeth, they went back to Celeste's room and played Smash bros. ultimate on there NinWoomi. And then 13 years later, they got married. 5 years after marriage, they had 3 squid kids, named Nini a cute inkling, Inko a daredevil squid, And last but very not least, Octavia an octoling. How Celeste and Enco are inklings? But both were 30% OCTOLING. Ah, a very happy ending! Thanks for reading my fanfiction!
