# Introduction

Hey y'all it's Shygirl.

# Chapter 1

Fear:

I have a deep fear.  
An insecurity.  
But I don't speak of it.  
Mostly because you ignore me.

I have a deep worry.  
One that I hate.  
It makes me feel low.  
All night and day.

If I had someone to talk to,  
I'd tell them all I had to say.  
About what's wrong with me  
And why I feel this way.

But I don't have someone.  
So, oh fucking well.  
Even if you were there  
You'd probably hurt me as well.

But since you insist,  
I'll tell you what's wrong.  
But it should've been something  
You knew all along.

Because if you were my friend  
You'd know I'm scared  
Of everyone leaving me.  
It'll make me reach the end.

That is my fear.  
My deepest worry.  
I doubt you even care.  
Or if you'd even be sorry.
